REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant invention claims a noble metal/magnetic metal oxide composite fine particles and a method to make such particles. The closest prior art references that relate to the claimed invention are Haruta'327 and JP'764. The closest prior art teaches that it is known in the art to adhere particles to magnetic particles. However, the prior art does not teach or fairly suggest the instant invention wherein the specific steps are used to make noble metal /magnetic metal oxide composite fine particles as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
